

## Risk Awareness for Outdoor Centre and Camp Thunderbird

### Participant Safety and Risk Management

The YMCA-YWCA of Vancouver Island Outdoor Centre and Camp Thunderbird is committed to providing quality outdoor experiences that support healthy growth and development of young people. The camp environment and programs provide unique opportunities for children, youth and adults to challenge themselves, learn new outdoor and interpersonal skills and make new friends. We invest significant resources to create programs that provide these benefits to our participants without exposing them to unacceptable hazards.

Participants and their families should be aware of the risks involved in participating in camp programs and accept that by participating they are taking those risks. Please take the time to review this summary of risks and our risk management approach. Risks will vary for each program, so we ask that you also take the time to review the information provided about each program [on our website](#). We are happy to speak with you should you have any questions or comments.

### Risk Management, Planning and Safety

The unique nature of an outdoor education or summer camp experience comes with risks called “inherent risks”. This means that we cannot eliminate the risk without destroying the unique character of the activity – the aspects that make it beneficial for the participants. Although we cannot eliminate those risks, we actively take steps to reduce or control them, with the intent of bringing them to a tolerable level. For example, riding a bicycle has certain risks, and most people would agree that by wearing a helmet and obeying traffic laws, the risks are tolerable.

At the Outdoor Centre and Camp Thunderbird, we manage the risks specific to our environment and programs by being experts in our field, providing thorough staff training, and buying and maintaining quality program and personal protective equipment. While these measures do not guarantee safety, they allow us to offer programs that provide the many documented benefits of outdoor education and summer camp experiences, such as personal growth, connections to nature and a sense of accomplishment.

### Risks Encountered at the Outdoor Centre and Camp Thunderbird

Activities we encounter in our everyday lives, and those that take place at the Outdoor Centre and Camp Thunderbird involve risks. Risk may vary based on the nature of the activity. Any of the activities at the Outdoor Centre and Camp Thunderbird involve certain emotional and physical risks, and many of them include the risk of disability, psychological trauma or even death, in the event of a serious incident.

Some of the hazards encountered as part of Outdoor Centre and Camp Thunderbird programs may be familiar from our home communities: inclement weather and storms, motor-vehicle accidents, uneven ground, treefall, fire, hot liquids, equipment failure, and communicable disease such as, but not limited to, flu, gastroenteritis, COVID-19, and other viruses.

## Risk Awareness For Outdoor Centre and Camp Thunderbird

Some hazards may be more unique to the Outdoor Centre and Camp Thunderbird programs and settings. These hazards include, but are not limited to: lake and ocean water, marine traffic, boat capsizes, wildlife encounters (including bears, cougars, wolves, mice or other rodents, and stinging insects), hypo- or hyperthermia, fall from heights, including falls while hiking in steep terrain, falls or injuries due to equipment failure, error in judgement, or natural rock or tree fall on our real-rock climbing areas or High Ropes challenge courses, remoteness from emergency medical or evacuation services, including the failure of communication technology.

The hazards listed, and other hazards not listed, can pose a risk to even a well-trained and highly certified instructor, leader or guide. Any of the Outdoor Centre and Camp Thunderbird programs or activities can, due to an error in judgement or factors beyond the leader's control, become hazardous and potentially life-threatening.

Participants and their families must weigh the risks that may be encountered with the strengths of the Outdoor Centre and Camp Thunderbird's Risk Management approach and plan as well as with the benefits of an outdoor education or camping experience.

## Risk Management Plan Summary

The following is a short list of examples of the types of procedures and policies that are part of our larger Risk Management Plans:

- All staff and volunteers have a Criminal Record Check with Vulnerable Sector Screening.
- All staff and volunteers have program-appropriate first aid training, with a minimum of Standard First Aid. Their CPR-C is renewed annually.
- Camp Thunderbird sea kayaking programs are led by guides certified by the [Sea Kayak Guides Alliance of British Columbia](#).
- The Outdoor Centre and Camp Thunderbird is accredited by the [British Columbia Camping Association](#). This accreditation ensures compliance with stringent training, health and safety protocols and auditors regularly visit the site for inspections.
- The Outdoor Centre and Camp Thunderbird's High Ropes courses are inspected and certified annually by an Association of Challenge Course Technology Professional Vendor Member.
- Camp Thunderbird cooperates with land managers and permitting authorities.
- The Outdoor Centre and Camp Thunderbird are supported by the YMCA-YWCA of Vancouver Island Health and Safety Committee.
- The Outdoor Centre and Camp Thunderbird, inspects, maintains and reviews all safety equipment, particularly emergency communications devices, regularly.
- The Outdoor Centre and Camp Thunderbird reviews all family and staff surveys.

## Contact Us

We encourage participants and their families to share questions or comments concerning risk management with us. Please contact General Manager Luke Ferris [lferris@vancouverisland.ca](mailto:lferris@vancouverisland.ca) 250-386-7511 about any aspect of the inherent risks of camping and about our risk management plan.
